Proven experience building, testing, and deploying performant, accessible web and mobile applications using React, Next.js, JavaScript, Tailwind CSS, Flutter, and modern CMS platforms like WordPress. Dedicated to crafting intuitive UI/UX and clean, scalable code.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), HTML5, CSS3, PHP, Dart, SQL
- Frameworks & Libraries: React, Next.js, Tailwind CSS, Bootstrap, Flutter, Laravel
- CMS & Tools: WordPress, Elementor, Figma, Git, GitHub, Visual Studio Code, Oracle APEX
- Core Competencies: Responsive Web Design, Component-Driven Development, REST APIs, UI/UX Prototyping

PROFESSIONAL EXPERIENCE

Software Developer & UI/UX Specialist (Contractor)

Your Support — David, Chiriquí, Panama | Jan 2024 – June 2025

- Led the full UI/UX redesign and web rebuild for Guía Médica, a major Panamanian medical directory platform.
- Successfully migrated 1,200+ articles and dynamic directory pages without losing SEO authority, maintaining search rankings and existing site ad revenue during transition.
- Optimized front-end performance and site architecture, achieving a low 35% bounce rate and an average engagement of 4.24 pages per visit.
- Designed responsive layouts and modular components using modern web tools to improve user retention and physician directory searchability.

Front-End Developer & Web Designer

Iryesa — David, Chiriquí, Panama | Dec 2021 – Nov 2024

- Designed and implemented accessible UI components across client web products, improving navigation clarity and interface aesthetics.
- Optimized front-end performance, asset loading, and mobile responsiveness across multi-browser environments.
- Partnered closely with back-end engineers to integrate user-facing elements with core system databases and application logic.

PROJECTS & FREELANCE

Freelance Software & Web Developer | NazhDev

Clínica de Arte Dental Redesign (clinicadeartedental.com):

- Overhauled an outdated, non-functional legacy HTML website into an elegant, high-speed WordPress platform tailored for patient conversion.
- Fixed broken contact pathways and integrated a streamlined appointment booking flow to increase direct client leads.
- Preserved established SEO structures while drastically improving site load speeds, mobile responsiveness, and visual branding.

Full-Stack Client Solutions:

- Design and deliver high-converting web applications and websites utilizing React, Next.js, Tailwind CSS, and WordPress.
- Manage end-to-end development lifecycles from UI prototyping in Figma to staging environments, domain routing, and production deployment.
